2 Updated: 07/04/2020
3
4 This privacy policy ("Privacy Policy") or privacy statement ("Privacy Statement")
applies to the treatment of personally identifiable information submitted by, or
otherwise obtained from, you in connection with the associated application
("Application"). The Application is provided by QFIRST (and may be provided by QFIRST
on behalf of a QFIRST licensor or partner ("Application Partner"). By using or
otherwise accessing the Application, you acknowledge that you accept the practices and
policies outlined in this Privacy Statement.

5
6 This privacy statement explains how we (QFIRST) collect, use and share your information
when you use our mobile application or website and services (we call all these the
"Services") or when you otherwise interact with us.

7
8 # WHAT PERSONAL INFORMATION DOES QFIRST COLLECT?
9

10 We collect the following types of information from our users:

11
12 Personal Information You Provide to Us:
13 We may receive and store any information you submit to the Application (or otherwise
authorize us to obtain - such as, from (for example) your Facebook account), location.
The types of personal information collected may include your email address, date of
birth, gender, username, location (Latitude and Longitude) and any other
information necessary for us to provide the Application services.

14
15 Account Information: When you use QFIRST, a username will be randomly assigned to you
that you may change at any time. Your username is publicly displayed when you interact
with the Services, such as when you match with another user or send a chat message to
another user. Please keep in mind that if your username contains your real name or is
the same as how you identify yourself on other online services, people who see it may
determine your identity.

16 We will also need your date of birth (for age calculation) and gender, that will be
associated with your QFIRST account. This information may identify, relate to,
describe, reference, is reasonably capable of being associated with, or could
reasonably be linked, directly or indirectly, with a particular consumer, household, or
device ("personal information"). Personal information does not include: (a) Publicly
available information from government records; (b) Deidentified or aggregated consumer
information; or (c) Information excluded from the California Consumer Protection Act's
scope, like: (i) health or medical information covered by the Health Insurance
Portability and Accountability Act of 1996 (HIPAA) and the California Confidentiality
of Medical Information Act (CMIA) or clinical trial data; (ii) personal information
covered by certain sector-specific privacy laws, including the Fair Credit Reporting
Act (FCRA), the Gramm-Leach-Bliley Act (GLBA) or California Financial Information
Privacy Act (FIPA), and the Driver's Privacy Protection Act of 1994.

17
18 Location Information: QFIRST will not work unless you provide us with some information
about your location. If you consent to the collection of location information (e.g. if
you permit your mobile device to send us your latitude and longitude), we will collect
and use this information so that we can tailor your interactions and experiences with
the Services and to provide more relevant advertising to you on our Services and other
websites and mobile applications. For example, we or our advertising partners may show
you questions from people around you or places you frequently visit, notifications of
things happening around you in real time, or advertisements from businesses near your
location. If you do not permit your mobile device to provide us with location
information, or location information is not available from your device for technical
reasons, you will not be able to use our services.

19
20 User Content: When you interact with the Services, we collect the information and
content you create. For example, we review the text and/or image content of your
questions, answers, chat messages, and collect metadata regarding such messages that
may collect the identity of the user and any users they communicate with. All questions
are public and are publicly displayed. They may be viewed, shared and modified by our
users, us and others for commercial or personal purposes (consistent with the rights
and licenses in our Terms of Use). Please keep in mind that if you include information
that could identify you in the text or image of a question, people who see it may
determine your identity. QFIRST does not post chat messages publicly but, as with any
message that you send via any service, the recipient might do so.

21

Usage Information: We collect information about your use of the Services, including access times, questions answered, user and QFIRST interactions (e.g. user blocked, questions answered, etc...) and other information about your interactions with us, the Services and other users. We use this information to, among other things, personalize your experience, provide and improve the Services, and monitor and analyze use of the Services.

Device Information: We collect information about the device you use to access our Services, which may include the hardware model, operating system and version, browser type and language, unique device identifiers and mobile network information. Among other things, we use this information to customize the Service for your device, to provide customer service and support, to deliver the products and services you request, to deliver notifications, for user safety, and for analytics and authentication.

Other Information: You may provide other information directly to us. For example, we may collect information when you fill out a form, update your account, interact with the Services, communicate with us via third-party social media sites, request customer support or otherwise communicate with us.
